

New VPN for JCUS

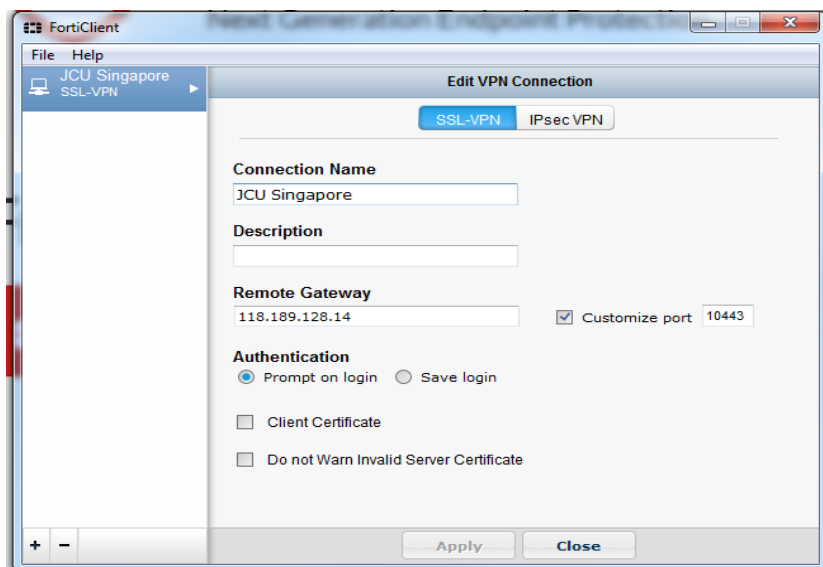

Step 1: Google search forticlient download as shown below.

Step 2: Download and Install

Step 3: Run Forticlient and click on Remote Access Tab click setup and made the changes as per image below then click apply. Login with JC#### and email password.

If an error occurs please do the necessary changes on Internet Explorer and make sure TLS are tick and apply the changes. Restart your machine and login to Forticlient again.
